1.0 INTRODUCTION

1.1 2003 Partial Consent Decree

This monthly progress report has been prepared in accordance with the requirements of the 2003 Partial Consent Decree (2003 CD) between the United States Environmental Protection Agency (EPA), Solutia Inc. (Solutia), and Pharmacia LLC (Pharmacia) entered by the United States District Court for the Northern District of Alabama (the Court) on August 4, 2003 (Docket No. 1:02-cv-0749-KOB). The 2003 CD was issued under Sections 106, 107, and 113(g)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. §§9606, 9697, §9613(g)(2). The 2003 CD provides for the performance of studies and response work by Solutia and Pharmacia at the Anniston PCB Site (Site) as defined by the 2003 CD. Solutia and Pharmacia, with Monsanto performing work on behalf of Pharmacia, are referred to as "P/S" in the subsequent sections of this report.

In accordance with Appendix A Section XIII (47), Appendix B Task 2, and Appendix G Section VI (2.5) of the 2003 CD, Section 2.0 of this report describes the work performed during the period of August 1, 2020 through August 31, 2020, including actions taken, unanticipated issues, if applicable, and analytical data received during the reporting period. Section 4.1 of this report also describes upcoming developments anticipated over the next two months for the work required by the 2003 CD, including scheduled dates of actions to be performed and planned resolutions of past or anticipated problems, if applicable.

1.2 2013 Operable Unit 3 (OU-3) Remedial Design/Remedial Action Consent Decree

The Consent Decree for the Remedial Design/Remedial Action for Operable Unit 3 (OU-3 RD/RA CD) between the EPA and P/S was entered by the Court on April 17, 2013 (Docket No. 1:02-cv-0749-KOB). The OU-3 RD/RA CD, which encompasses the Solutia plant and the adjacent closed South and West Landfills, provides for the implementation of the remedies selected for OU-3 as described in the Interim Record of Decision (IROD) issued by Region 4 of the EPA on September 29, 2011.

In accordance with Section X. Paragraph 31 of the OU-3 RD/RA CD, Section 3.0 of this report describes the work performed for the OU-3 RD/RA during the period of August 1, 2020 through

August 2020 Progress Report Anniston PCB Site September 9, 2020 Page 2 of 7

August 31, 2020, including actions taken, unanticipated issues, if applicable, and analytical data received during the reporting period. Section 4.2 of this report describes the upcoming developments anticipated over the next two months for the work required by the OU-3 RD/RA CD, including scheduled dates of actions to be performed and planned resolutions of past or anticipated problems, if applicable.

2.0 2003 CD WORK PERFORMED DURING REPORTING PERIOD

2.1 General 2003 CD Activities

2.1.1 Administrative Submittals

A 2003 CD submittal schedule for the Site that includes this reporting period's submittals and/or submittals awaiting approval or response is included as Table 1. This schedule includes the dates that documents were submitted to the EPA and the dates that approvals or comments were received from the EPA.

2.2 Operable Unit 1/Operable Unit 2 (OU-1/OU-2)

2.2.1 General

P/S and the EPA previously reached a preliminary agreement for the Remedial Design/Remedial Action (RD/RA) at OU-1/OU-2 of the Anniston PCB Site. The RD/RA Consent Decree is currently being reviewed by the EPA management and the Department of Justice.

2.2.2 Residential Removal Properties Program

The residential program consists of residential work associated with the 2003 CD. This includes the non-time critical (NTC) residential activities as well as time critical residential activities associated with the Administrative Order on Consent (AOC), effective October 5, 2001.

During this reporting period, P/S continued to work with the local municipalities and property owners to implement the approved NTC Removal Action Interim IC Program for Residential Properties (Interim IC Program). Table 2 provides a summary of the number of properties in each IC group.

2.2.2.1 Residential Removal Access

Access activity includes updating owner/tenant information, access request information, and/or EPA notification of non-compliance information. During this reporting period, P/S were granted access to complete surface sampling at the footprint of a former structure at 1209 Crawford Avenue (Attachment A).

September 9, 2020 Page 4 of 7

Currently there are 12 residential properties in the Residential Removal Properties Program where

access has not been granted. The properties are summarized in Table 3, and a description of each

property's status is presented in Table 4.

2.2.2.2 Residential Removal Activities

During this reporting period, P/S did not perform any surface or depth sampling associated with

residential removal properties in Evaluation Areas 1-35 and Zones A and B.

P/S continued to perform the required routine inspections of the Central Staging and Soil

Management Area (CSSMA) and South Staging and Soil Management Area (SSSMA) during this

reporting period. No adverse findings were noted during the inspections.

2.2.3 OU-1/OU-2 Non-Residential Program

During this reporting period, Cable East completed a project to install fiber optic lines through a

portion of the Snow Creek floodplain along Highway 78 in Oxford, Alabama. On August 5 and

August 18, 2020, P/S collected samples of the soils and drilling spoils generated from this project

for waste characterization. The validated data are presented in Table 5. P/S are currently

scheduling the transportation and disposal services for the soils and drilling spoils generated from

this infrastructure support project.

2.3 11th Street Ditch

P/S will perform the next quarterly routine inspections as described in the 11th Street Ditch

Operations and Maintenance Plan during the month of September 2020.

2.4 Operable Unit 4 (OU-4)

Currently there is one residential property in the OU-4 Residential Removal Properties Program

where access has not been granted. The property's status is presented in Table 6.

On August 13, 2020, P/S gave a presentation via videoconference to the EPA of a summary of the

OU-4 Remedial Investigation, the Remedial Action Objectives and the Detailed and Comparative

Analysis of Remedial Alternatives for OU-4.

During this reporting period, P/S continued to provide construction support for the Dewatering Facility project at the Choccolocco Creek Waste Water Treatment Plant in accordance with the approved construction support work plan. This project is scheduled to be completed by May 2021.

2.5 Technical Assistance Plan Grant (TAPG)

The Technical Advisor, Mr. Bertrand Thomas, P.G., continues to review Site-related documents and convey information from these documents to the Community Advisory Group (CAG) and the community.

2.6 Community Advisory Group (CAG)

There was no CAG meeting scheduled for August. The next CAG meeting is scheduled for September 8, 2020 and will be held via video teleconference.

3.0 OU-3 RD/RA CD WORK PERFORMED DURING REPORTING PERIOD

3.1 General OU-3 RD/RA CD Activities

3.1.1 Administrative Submittals

A CD submittal schedule for OU-3 that includes this reporting period's submittals and/or submittals awaiting approval or response is included as Table 7.

3.2 Remedial Action

P/S are currently preparing a revised Institutional Controls Implementation and Assurance Plan (ICIAP) that documents the final remedial components performed as part of the completed RA work. The revised ICIAP will include an executed Environmental Covenant as required by the IROD.

On August 31, 2020, P/S submitted the Seep Investigation Report in accordance with the Seep Investigation: Interim Results and Updated Workplan. This report presents results and findings associated with seep occurrence and flow rate, concentrations of Constituents of Interest in seep water, correlations of seep occurrence and flow rate with rainfall and groundwater levels, geochemical correlations to nearby groundwater monitoring wells, and geochemical variation of seep water and groundwater over time. EPA approval is pending.
